# Model structure

This section details the structure of the integrated CLEWS-Ethiopia model. It is divided into 3 sub-sections: energy, land-use, and water. Each sub-section provides a snapshot of the underlying representation of the relevant sector in the CLEWS model.

Energy

Population

Scenario	2015	2020	2025	2030
Medium variant	100.84	114.96	129.75	144.94
